Applications of ATILA FEM Software to Smart Materials: Case Studies in Designing Devices (Woodhead Publishing Series in Electronic and Optical Materials)

ATILA Finite Element Method (FEM) software facilitates the modelling and analysis of applications using piezoelectric, magnetostrictor and shape memory materials. It allows entire designs to be constructed, refined and optimized before production begins. Through a range of instructive case studies, Applications of ATILA FEM software to smart materials provides an indispensable guide to the use of this software in the design of effective products.

Part one provides an introduction to ATILA FEM software, beginning with an overview of the software code. New capabilities and loss integration are discussed, before part two goes on to present case studies of finite element modelling using ATILA. The use of ATILA in finite element analysis, piezoelectric polarization, time domain analysis of piezoelectric devices and the design of ultrasonic motors is considered, before piezo-composite and photonic crystal applications are reviewed. The behaviour of piezoelectric single crystals for sonar and thermal analysis in piezoelectric and magnetostrictive materials is also discussed, before a final reflection on the use of ATILA in modelling the damping of piezoelectric structures and the behaviour of single crystal devices.

With its distinguished editors and international team of expert contributors, Applications of ATILA FEM software to smart materials is a key reference work for all those involved in the research, design, development and application of smart materials, including electrical and mechanical engineers, academics and scientists working in piezoelectrics, magnetostrictors and shape memory materials.

- Provides an indispensable guide to the use of ATILA FEM software in the design of effective products
- Discusses new capabilities and loss integration of the software code, before presenting case studies of finite element modelling using ATILA
- Discusses the behaviour of piezoelectric single crystals for sonar and thermal analysis in piezoelectric and magnetostrictive materials, before a reflection on the use of ATILA in modelling the damping of piezoelectric structures

From reader reviews:

William Grimm:

Why don't make it to be your habit? Right now, try to ready your time to do the important take action, like looking for your favorite reserve and reading a reserve. Beside you can solve your short lived problem; you can add your knowledge by the book entitled Applications of ATILA FEM Software to Smart Materials: Case Studies in Designing Devices (Woodhead Publishing Series in Electronic and Optical Materials). Try to stumble through book Applications of ATILA FEM Software to Smart Materials: Case Studies in Designing Devices (Woodhead Publishing Series in Electronic and Optical Materials) as your pal. It means that it can to be your friend when you feel alone and beside regarding course make you smarter than ever. Yeah, it is very fortunated for yourself. The book makes you considerably more confidence because you can know every little thing by the book. So , we should make new experience in addition to knowledge with this book.

James Dorman:

In other case, little folks like to read book Applications of ATILA FEM Software to Smart Materials: Case Studies in Designing Devices (Woodhead Publishing Series in Electronic and Optical Materials). You can choose the best book if you want reading a book. Provided that we know about how is important any book Applications of ATILA FEM Software to Smart Materials: Case Studies in Designing Devices (Woodhead Publishing Series in Electronic and Optical Materials). You can add knowledge and of course you can around the world with a book. Absolutely right, mainly because from book you can recognize everything! From your country until foreign or abroad you can be known. About simple factor until wonderful thing you are able to know that. In this era, we are able to open a book or even searching by internet device. It is called e-book. You may use it when you feel weary to go to the library. Let's examine.

Kathryn Bowen:

This Applications of ATILA FEM Software to Smart Materials: Case Studies in Designing Devices (Woodhead Publishing Series in Electronic and Optical Materials) usually are reliable for you who want to certainly be a successful person, why. The reason why of this Applications of ATILA FEM Software to Smart Materials: Case Studies in Designing Devices (Woodhead Publishing Series in Electronic and Optical Materials) can be one of several great books you must have is giving you more than just simple studying food but feed you with information that perhaps will shock your earlier knowledge. This book is actually handy, you can bring it all over the place and whenever your conditions in the e-book and printed ones. Beside that this Applications of ATILA FEM Software to Smart Materials: Case Studies in Designing Devices (Woodhead Publishing Series in Electronic and Optical Materials) forcing you to have an enormous of experience including rich vocabulary, giving you trial run of critical thinking that could it useful in your day activity. So , let's have it and luxuriate in reading.

Haley Thacker:

Publication is one of source of know-how. We can add our knowledge from it. Not only for students but native or citizen will need book to know the up-date information of year to be able to year. As we know those guides have many advantages. Beside all of us add our knowledge, could also bring us to around the world. Through the book Applications of ATILA FEM Software to Smart Materials: Case Studies in Designing Devices (Woodhead Publishing Series in Electronic and Optical Materials) we can have more advantage. Don't one to be creative people? To get creative person must want to read a book. Just simply choose the best book that suitable with your aim. Don't possibly be doubt to change your life at this time book Applications of ATILA FEM Software to Smart Materials: Case Studies in Designing Devices (Woodhead Publishing Series in Electronic and Optical Materials). You can more pleasing than now.
