Little Friends, Volume III (Volume 3) Mr Tom Mullen

World War Two was probably the most documented event in all of human existence. US Army records weight 17,120 tons. That's about 188 miles of filing cabinets arranged side by side. Obviously, that is a lot of territory so my series is very succinct. The series is a mini-history with a focus on the air war, the men / women, the events and the times. I divided the book into very detailed sections. Main story in Volume III is the development of night fighters, the technology focus on gunnery, and the home front talks about rationing. And more. Carefully researched and accented with personal anecdotes.
