Air Refueling Operations in the North Pacific: Is There a More Efficient Method? Michael J. Rauenhorst

This is a AIR FORCE INST OF TECH WRIGHT-PATTERSON AFB OH SCHOOL OF LOGISTICS AND ACQUISITION MANAGEMENT report procured by the Pentagon and made available for public release. It has been reproduced in the best form available to the Pentagon. It is not spiral-bound, but rather assembled with Velobinding in a soft, white linen cover. The Storming Media report number is A862453. The abstract provided by the Pentagon follows: The 1997 Air Force Long Range Plan states the Air Force will continue to rely on the Air Reserve Component (ARC) in an integrated Total Force. Driven by the desire to maximize efficiency and operational effectiveness within allocated resources, the Air Force will continue to look for new opportunities, to include examining ARC involvement in new mission areas and optimizing the reverse associate unit. The best location to attempt either a KC-135 reverse associate unit or a non-traditional Air National Guard KC-135 squadron might be in the North Pacific Theater. Both options would help reduce the operations tempo of KC-135 squadrons, might help with aircrew retention, and would increase the reliability and cost effectiveness of air refueling operations in the North Pacific. This paper performs a cost benefit analysis on several proposals to satisfy the air refueling requirements in the North Pacific in a more cost efficient manner than today's current operations. Results of this study reflect an overall cost savings and more efficient use of air refueling resources with an increase in the number of KC-135Rs assigned to or associated with the 168th Air Refueling Wing. This paper examined several basing options and the associated costs and benefits.

From reader reviews:

Katherine Levy:

Nowadays reading books become more than want or need but also work as a life style. This reading habit give you lot of advantages. The huge benefits you got of course the knowledge your information inside the book this improve your knowledge and information. The data you get based on what kind of guide you read, if you want send more knowledge just go with education and learning books but if you want really feel happy read one together with theme for entertaining such as comic or novel. The actual Air Refueling Operations in the North Pacific: Is There a More Efficient Method? is kind of reserve which is giving the reader unstable experience.

Tammi Kendrick:

Typically the book Air Refueling Operations in the North Pacific: Is There a More Efficient Method? will bring one to the new experience of reading any book. The author style to explain the idea is very unique. In case you try to find new book to study, this book very suited to you. The book Air Refueling Operations in the North Pacific: Is There a More Efficient Method? is much recommended to you to see. You can also get the e-book through the official web site, so you can more easily to read the book.

Janet Medley:

The e-book untitled Air Refueling Operations in the North Pacific: Is There a More Efficient Method? is the guide that recommended to you to study. You can see the quality of the guide content that will be shown to you. The language that creator use to explained their way of doing something is easily to understand. The article author was did a lot of study when write the book, hence the information that they share to your account is absolutely accurate. You also could get the e-book of Air Refueling Operations in the North Pacific: Is There a More Efficient Method? from the publisher to make you far more enjoy free time.

Sabrina Crockett:

The publication with title Air Refueling Operations in the North Pacific: Is There a More Efficient Method? has lot of information that you can discover it. You can get a lot of gain after read this book. This particular book exist new understanding the information that exist in this publication represented the condition of the world right now. That is important to you to find out how the improvement of the world. That book will bring you inside new era of the globalization. You can read the e-book on your own smart phone, so you can read the idea anywhere you want.
