## Decision Making in Ophthalmology: An Algorithmic Approach

The third edition of Decision Making in Ophthalmology has been fully updated to present ophthalmologists and trainees with the latest advances in the diagnosis and treatment of eye disorders. Presented in an algorithmic format using flow charts, the book covers all key topics in ophthalmology, with each algorithm outlining the decision making process that should be followed when diagnosing and treating a specific condition. Each flow chart is colour coded to allow easy differentiation between surgical, pharmaceutical and other treatments. Written by an extensive author and editor team from throughout the USA, this highly useful new edition includes nearly 300 clinical photographs, illustrations and tables. Key points \* Third edition presenting latest advances in diagnosis and treatment of eye disorders \* Presented in algorithmic approach using colour coded flow charts \* Extensive, US author and editor team \* Previous edition published in 1999
