History of Geomorphology and Quaternary Geology - Special Publication no 301 R. H. Grapes, D. R. Oldroyd, A. Grigelis

This book deals with various interesting aspects of the histories of geomorphology and Quaternary geology in different parts of the world. The papers cover a range of topics: the origin of the term 'Quaternary', histories of ideas and debates relating to aspects of fluvial geomorphology (USA and Australia), glacial geomorphology and glaciation (Northern Europe, the Baltic countries, Russia, Iceland, and New Zealand), desert dunes and the geology of Australia, peneplains in China, a palaeo-Tokyo Bay in Japan, together with biographies of Charles Cotton (New Zealand), Valerija Cepulyte (Lithuania) and Ceslovas Pakuckas (Lithuania and Poland) that highlight their respective contributions to the disciplines of geomorphology and Quaternary geology. There is an autobiographical contribution from E. E. Milanovsky (Russia) on his work in Siberia, the Caucasus and Iceland, illustrated by his sketches made in the field.

Also available:

The History of Geoconservation - Special Publication no 300 - ISBN 978-1-86239-254-0

Landscape Evolution: Denudation, Climate and Tectonics over Different Time and Space Scales - ISBN 978-1-86239-250-2

The History of the Study of Landforms or the Development of Geomorphology Vol 4 - ISBN 978-1-86239-249-6

The Geological Society of London

Founded in 1807, the Geological Society of London is the oldest geological society in the world, and one of the largest publishers in the Earth sciences.

The Society publishes a wide range of high-quality peer-reviewed titles for academics and professionals working in the geosciences, and enjoys an enviable international reputation for the quality of its work.

The many areas in which we publish in include:

- Petroleum geology
- Tectonics, structural geology and geodynamics
- Stratigraphy, sedimentology and paleontology
- Volcanology, magmatic studies and geochemistry
- Remote sensing
- History of geology
- Regional geology guides
