MyITCertificationlabs should be used in an instructor led classroom environment and are not intended for individual self-study MyITCertificationLab: Computer Security Fundamentals is an easy-to-use exam preparation service that both measures your readiness and teaches you what you need to know to pass the Computer Security Fundamentals course. The web-based service assesses your knowledge with brief, chapter-specific quizzes. Then it provides feedback in areas where you need further study within each chapter. You are also provided with the actual study materials you need to learn in the form of PDFs from Computer Security Fundamentals as well as other visual learning tools. After reviewing the learning materials, you take another test to be sure you understand those objective concepts and that you are ready for the actual exam. When you have completed all the chapters, you can take two full-length practice exams, providing you a measurement on your exam readiness. In addition to the practice tests and personalized study plans, this product includes a complete ebook of the Computer Security Fundamentals, Second Edition.
