Michael Schmidt

The Harvill Book of 20th Century Poetry in English (Harvill Press Editions) Michael Schmidt

Michael Schmidt's anthology includes the work of more than a hundred poets from every part of the English-speaking world. What links their diverse voices is a common language: each poem, in its own way, adds to the resources of the medium and makes it new.

The poems in this book are allowed to slip free of their moorings in the biography and history of the last century to create new spaces and times. They have been chosen because they are exceptional, profound and unique in what they do to language, regardless of their subject matter or the orientation of the poet. It is a powerful reminder that in the twentieth century poems did what they have never done before, and it provides us with a unique insight into the forces that will shape the poetry of the twenty-first century.
