This is exactly what the title suggests. A picture of each state bird (or game bird or waterfowl in one case) for every state plus the District of Columbia. On one page is a full color picture of the bird and on the facing page is the name (both common and scientific) along with the year the state bird was established. If you want a history of the state birds or any other information, you'll want to look elsewhere. If you just want to know which bird is which and have a nice full color picture of each, you're in the right place.
