Advanced Public Procurement as Industrial Policy: The Aircraft Industry as a Technical University (Economics of Science, Technology and Innovation) Gunnar Eliasson

This study is about the macroeconomic effects of positive externalities or industrial spillovers around advanced production. The case explored is the “technology dividend” around Swedish aircraft industry, and in particular around the aircraft manufacturer Saab, and the major industrial project of the JAS 39 Gripen multirole combat aircraft. The project is partly an updating of my book (in Swedish) Technology 1 Generator or a National Presige Project from 1995, but extends the analysis in several directions. The study includes a chapter on spillovers from advanced production in an industrially developing economy, South Africa, that has acquired the JAS 39 Gripen for its Air Force. There is also a chapter in which the results for Sweden are discussed in the wider context of advanced public procurement in Europe. The text has been organized such that the main chapters have been written for academic readers. Two supplements include the technical details of data collection, mathematical models, and calculation methods. The first chapter is brief and focused on the results. It has the character of an extended executive summary. The second chapter summarizes the entire story; problems, results, and methods. This project would not have been possible without the generous support of a number of people. First of all great thanks go to all those people with crowded calendars in Swedish industrial firms that have set aside time to respond to my questions. Most of them have been listed at the end of the book.

From reader reviews:

Richard Morris:

What do you think of book? It is just for students as they are still students or this for all people in the world, the actual best subject for that? Merely you can be answered for that query above. Every person has different personality and hobby for every other. Don't to be forced someone or something that they don't desire do that. You must know how great and important the book Advanced Public Procurement as Industrial Policy: The Aircraft Industry as a Technical University (Economics of Science, Technology and Innovation). All type of book would you see on many resources. You can look for the internet options or other social media.

Angel Huitt:

Now a day those who Living in the era wherever everything reachable by interact with the internet and the resources included can be true or not involve people to be aware of each facts they get. How a lot more to be smart in getting any information nowadays? Of course the answer is reading a book. Looking at a book can help persons out of this uncertainty Information mainly this Advanced Public Procurement as Industrial Policy: The Aircraft Industry as a Technical University (Economics of Science, Technology and Innovation) book because book offers you rich information and knowledge. Of course the information in this book hundred pct guarantees there is no doubt in it as you know.

Juan Turgeon:

The actual book Advanced Public Procurement as Industrial Policy: The Aircraft Industry as a Technical University (Economics of Science, Technology and Innovation) will bring you to the new experience of reading a book. The author style to elucidate the idea is very unique. If you try to find new book to learn, this book very suitable to you. The book Advanced Public Procurement as Industrial Policy: The Aircraft Industry as a Technical University (Economics of Science, Technology and Innovation) is much recommended to you you just read. You can also get the e-book from your official web site, so you can quicker to read the book.

Ruth Ford:

Advanced Public Procurement as Industrial Policy: The Aircraft Industry as a Technical University (Economics of Science, Technology and Innovation) can be one of your basic books that are good idea. We all recommend that straight away because this book has good vocabulary that will increase your knowledge in vocab, easy to understand, bit entertaining but nevertheless delivering the information. The article author giving his/her effort to place every word into joy arrangement in writing Advanced Public Procurement as Industrial Policy: The Aircraft Industry as a Technical University (Economics of Science, Technology and Innovation) although doesn't forget the main point, giving the reader the hottest and also based confirm resource information that maybe you can be one among it. This great information could drawn you into

completely new stage of crucial pondering.
