ASCE 7-10 Wind Design Provisions (SKGA Web Seminar DVD with PDF Handout) S. K. Ghosh

This seminar addresses all substantive changes made to the wind design provisions of ASCE 7-10, Minimum Design Loads for Buildings and Other Structures, from the 2005 edition. This is the perfect "next step" seminar for those who attended the ASCE 7-10 Overview web seminar. This two-hour seminar dedicates the time necessary to analyze and fully explain the major changes found in ASCE 7-10 Chapters 26-31. Wind design has changed more substantially than any time since the publication of ASCE 7-95. The reorganization of the wind provisions are discussed and the changes to the wind maps and the corresponding changes to the load factors are explained. In addition, the new simplified version of the general analytical procedure under Method 2, which is applicable to buildings of all heights, is addressed.
