As a pupil exactly feel bored to reading. If their teacher asked them to go to the library or make summary for some book, they are complained. Just very little students that has reading's heart or real their pastime. They just do what the educator want, like asked to the library. They go to right now there but nothing reading critically. Any students feel that reading through is not important, boring as well as can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for yourself.
