Fat Chance (The Kingsley Series Book 1) Brandi Kennedy

The Kingsley Series is a series of stand-alone contemporary women's fiction romance novels, each connected to the next by the bonds of family. Each book in this series follows the personal journey of one of the Kingsley couples – however, each story is continued and updated in the following book. These books can be read in any order, but are best enjoyed in order of publication. This series contains mild sexual content.

Fat Chance is the first book in the series:

Cassandra Keaton is an outsider; still living with the after effects of the death of her family and a young adulthood spent in the foster system, Cass has been shuffled from one place to another nearly all her life. Add to that the loneliness of rejection and a heartbreakingly low sense of self-worth, and you have a woman who is broken and confused, depressed and debating the unthinkable.

Only her love for her adoptive family (and knowledge of their love for her) pulls her back from the brink, and she reaches out to the one person who can truly help her – her therapist. Mac shows Cass how to find her own sense of self-worth, and what he teaches her gives her the strength to turn things around.

And then ... there's Drew. Drew Kingsley is a man with demons of his own, but a chance encounter brings them together in a way neither of them expected. When she breaks down again and pushes him away, will Drew have what it takes to help Cass see how beautiful she is? Or will a disaster for Drew in the line of duty mean that Cass is too late to take a chance on love?
