Tim Burton: Essays on the Films Johnson Cheu

Since his early days at Disney, Tim Burton has shown a unique talent and vision. His writing and directing credits range from big-budget features such as *Batman* (1989) and *Batman Returns* (1992), to the comically grisly *The Nightmare Before Christmas* (1993) and *Corpse Bride* (2005), to the twisted fairy tale *Edward Scissorhands* (1990), to literary adaptations like *Big Fish* (2003), *Charlie and the Chocolate Factory* (2005) and *Sweeney Todd* (2007). Though his name has become synonymous with the macabre and the odd, Burton's films often reveal and champion the flawed human in us all. This collection of new essays brings together scholarship on many of his popular films, adaptations, and innovations in stop-motion animation and his collaborative relationship with actor Johnny Depp, providing an in-depth exploration of one of the most prominent figures on the pop culture landscape in recent decades.
