The Husband's Secret: by Liane Moriarty | Summary & Analysis

Liane Moriarty's literary piece is a combination of domestic drama and romance that traces the lives of three women and their families as they coincide around a primary school in Sydney. Exploring such ideas as stages of womanhood and retributive justice, it is an entertaining read that nonetheless pushes readers to ask questions and consider their own lives. The novel offers an interesting domestic drama, not unlike a television soap opera in its thrust – and given the popularity of the soap opera across decades and in amended forms across genres and media, that similarity does much to popularize the bestselling book.

Liane Moriarty's contemporary fiction follows Claire Fitzpatrick, Tess Curtis and Rachel Crowley as their lives intersect and intertwine around their children and the communities surrounding them. Claire's husband's secret, once revealed, binds her to Rachel; the revelation of Tess's husband's secret thrusts her into the already-weaving web connecting the other two women. Each manages to work through issues of family and the handling of secrets – their own and others' – before coming to a resolution that promises but does not actually display a slow return to a sense of normalcy long delayed.

This companion also includes the following:

- Book Review
- Story Setting Analysis
- Story elements you may have missed as we decipher the novel
