Our lives are like objects hurtling through time, constantly colliding with changing circumstances or situations that send us careening down new trajectories; new paths. "Change," however, doesn't have to be a bad word. When we learn how to respond to it, change can make the rest of our lives even better.

Experienced church founder and pastor Bishop Dale Bronner explains in practical terms how to take responsibility for our trajectory instead of panicking over change or stagnating from lack of change. With helpful principles, motivation, and personal stories, this book is a guide for any Christian who wants to work hard and become a master of change. Although some adversity may be inevitable along the way, our only true failure is a failure to launch in a new trajectory when times, situations, and circumstances change around us. Bronner encourages us to prophesy our future and to realize that the power in God's Word can take us to a new and better place.
