The War with the Newts Karel Capek

The War with the Newts, also translated as War with the Salamanders, is a 1936 satirical science fiction novel by Czech author Karel Čapek. It concerns the discovery in the Pacific of a sea-dwelling race, an intelligent breed of newts, who are initially enslaved and exploited. They acquire human knowledge and rebel, leading to a global war for supremacy. There are obvious similarities to Čapek's earlier R.U.R., but also some original themes.

War with the Newts was described as a "classic work" of science fiction by science fiction author and critic Damon Knight.

Man discovers a species of giant, intelligent newts and learns to exploit them so successfully that the newts gain skills and arms enough to challenge man's place at the top of the animal kingdom.
