Advances in Multimedia Information Processing - PCM 2004: 5th Pacific Rim Conference on Multimedia, Tokyo, Japan, November 30 - December 3, 2004, ... Part III (Lecture Notes in Computer Science)

Welcome to the proceedings of the 5th Paci?c Rim Conference on Multimedia (PCM 2004) held in Tokyo Waterfront City, Japan, November 30-December 3, 2004. Following the success of the preceding conferences, PCM 2000 in Sydney, PCM 2001 in Beijing, PCM 2002 in Hsinchu, and PCM 2003 in Singapore, the ?fth PCM brought together the researchers, developers, practitioners, and educators in the ?eld of multimedia. Theoretical breakthroughs and practical systems were presented at this conference, thanks to the support of the IEEE Circuits and Systems Society, IEEE Region 10 and IEEE Japan Council, ACM SIGMM, IEICE and ITE. PCM2004featuredacomprehensiveprogramincludingkeynotetalks, regular paperpresentations, posters, demos, and specials essions. We received 385 papers andthenumberofsubmissionswasthelargestamongrecentPCMs. Amongsuch a large number of submissions, we accepted only 94 oral presentations and 176 poster presentations. Seven special sessions were also organized by world-leading researchers. We kindly acknowledge the great support provided in the reviewing of submissions by the program committee members, as well as the additional reviewers who generously gave their time. The many useful comments provided by the reviewing process must have been very valuable for the authors' work. This conference would never have happened without the help of many people. We greatly appreciate the support of our strong organizing committee chairs and advisory chairs. Among the chairs, special thanks go to Dr. Ichiro Ide and Dr. Takeshi Naemura who smoothly handled publication of the proceedings with Springer. Dr. Kazuya Kodama did a fabulous job as our Web master.

#### From reader reviews:

#### Gina Keller:

Information is provisions for individuals to get better life, information these days can get by anyone with everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider when those information which is inside the former life are challenging to be find than now is taking seriously which one works to believe or which one often the resource are convinced. If you find the unstable resource then you understand it as your main information you will see huge disadvantage for you. All those possibilities will not happen within you if you take Advances in Multimedia Information Processing - PCM 2004: 5th Pacific Rim Conference on Multimedia, Tokyo, Japan, November 30 - December 3, 2004, ... Part III (Lecture Notes in Computer Science) as the daily resource information.

#### **Leslie Bennett:**

Spent a free a chance to be fun activity to try and do! A lot of people spent their leisure time with their family, or their own friends. Usually they doing activity like watching television, about to beach, or picnic in the park. They actually doing ditto every week. Do you feel it? Do you wish to something different to fill your current free time/ holiday? May be reading a book might be option to fill your totally free time/ holiday. The first thing you ask may be what kinds of book that you should read. If you want to attempt look for book, may be the reserve untitled Advances in Multimedia Information Processing - PCM 2004: 5th Pacific Rim Conference on Multimedia, Tokyo, Japan, November 30 - December 3, 2004, ... Part III (Lecture Notes in Computer Science) can be good book to read. May be it can be best activity to you.

#### **Charles Brewster:**

Precisely why? Because this Advances in Multimedia Information Processing - PCM 2004: 5th Pacific Rim Conference on Multimedia, Tokyo, Japan, November 30 - December 3, 2004, ... Part III (Lecture Notes in Computer Science) is an unordinary book that the inside of the reserve waiting for you to snap that but latter it will surprise you with the secret the idea inside. Reading this book adjacent to it was fantastic author who have write the book in such amazing way makes the content inside of easier to understand, entertaining means but still convey the meaning fully. So , it is good for you because of not hesitating having this any more or you going to regret it. This phenomenal book will give you a lot of advantages than the other book have got such as help improving your ability and your critical thinking technique. So , still want to hold up having that book? If I were you I will go to the guide store hurriedly.

#### **Don Morris:**

Reading a book to be new life style in this year; every people loves to read a book. When you learn a book you can get a great deal of benefit. When you read ebooks, you can improve your knowledge, due to the fact book has a lot of information in it. The information that you will get depend on what forms of book that you

have read. If you would like get information about your review, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, such us novel, comics, along with soon. The Advances in Multimedia Information Processing - PCM 2004: 5th Pacific Rim Conference on Multimedia, Tokyo, Japan, November 30 - December 3, 2004, ... Part III (Lecture Notes in Computer Science) offer you a new experience in reading a book.
