Welcome to Dumbfuckistan: The Dumbed-Down, Disinformed, Dysfunctional, Disunited States of America Ian Gurvitz

"A lot of what I believe, Ian Gurvitz has silver-tongued into a most readable, cathartic and funny book - congratulations, Ian Gurvitz, whoever you are!" Bill Maher Welcome to Dumbfuckistan is an unapologetic liberal screed about the deteriorating state of our national dialogue, which is dragging down our culture, our politics, and our lives. It contains strong opinions, snarky comments, and gratuitous insults directed at people and ideas I disagree with, disrespect and, in some cases, despise. Although the Western philosophical tradition may be grounded in a Socratic search for truth, American political life has devolved into a mosh pit of willful ignorance, talking points, disinformation, and lies, while the culture has descended into a celebration of the dumbest common denominator. Burning Man for the brain dead. While there has always been an element of stupidity in America, only now it's become a valid intellectual stance. Fact has been relegated to "just another opinion." Voices that, at one time in our history, would have been laughed off the national stage have now been afforded mainstream legitimacy. Idiotic remarks that would have been walked back when the speaker sobered up are now backed up with even more bluster than when they were uttered. Even racist and sexist taunts proudly ride in under the banner of flouting political correctness. And it's all been spearheaded by Rupert Murdoch taking a giant shit in the mouth of the American conversation with Fox News. We assume Orwell's 1984 dystopian nightmare can't happen here, yet we've been narcotized into a more ominous Orwellian somnambulism. We're inebriated on our own mythology, priapic at our military supremacy, and malleable via our ionic imagery, whether it's Jesus or the flag. Jacked up on Adderall, Red Bull and patriotism, we only unite in war, tragedy and the Super Bowl. We've become style over substance, image over reality, propaganda over truth, and symbol over meaning. We claim to value education, yet mistrust intelligence. Immune to facts, frightened of change, we think magically. Magic potions that will heal us, magic diets that will shrink us, and magic beliefs that will save us. And we think all this behavior has been blessed by a big daddy in the sky who lovingly placed us here for profit, guns, and heterosexual marriage. Perhaps evolution is a myth, in that we seem to be devolving. The Roman Empire collapsed due to war, overexpansion and rampant corruption. The British Empire dissolved due to cultural arrogance and imperialistic hubris. Sadly, as we devolve from Democracy to Idiocracy, America may become the first world power to crumble under the weight of its own stupidity.
