Do you need a powerful hammer? Do you need a pair of exquisite shoes? Do you need prepare some uncommon toys for your child? Do you need a delicate meal? You can just print it out. This book will take you into the world of 3D printing. It will lead you to know the coolest thing, which will turn imaginative things into reality and bring about a profound social revolution. This book tells about the ground-breaking development of 3D print technology and how 3D print technology will be used in schools, kitchen, hospitals and etc. According to the forecast of the book, in near future, we can use computer to design what we want and use three-dimensional print, just as we edit and print texts now. From electronic design or design plan, 3D print technology will turn the digital information into physical objects. As a matter of fact, that is only part of 3D print, while the most magical part of 3D printing is that it will bring about earth-shaking changes in material science and biological science, which will lead to the explosive revolution of scientific technology and innovation.
