Agriculture has been contributing significantly to the overall growth of the Indian economy however; food situation in most of the developing countries remains precarious. Around 800 million people worldwide are food-insecure and in India alone, around 200 million people are undernourished. This malady must be addressed with new knowledge generated by continued scientific advances, the development of appropriate new technologies and a wide dissemination of this knowledge. Feasible and viable technology along with the suitable policies is the basic necessity for holistic agriculture development. Dr. Swaminathan has called for an 'Evergreen Revolution' a movement towards more sustainable agriculture
