Handbook of Operations Research in Agriculture and the Agri-Food Industry (International Series in Operations Research & Management Science)

Handbook of Operations Research in Agriculture and the Agri-Food Industry (International Series in Operations Research & Management Science)

The scope of this book is Operations Research methods in Agriculture and a thorough discussion of derived applications in the Agri-food industry. The book summarizes current research and practice in this area and illustrates the development of useful approaches to deal with actual problems arising in the agriculture sector and the agri-food industry.

This book is intended to collect in one volume high quality chapters on *Methods and Applications in Agriculture and Agri-food industry* considering both theoretical issues and application results. Methods applied to problems in agriculture and the agri-food industry include, but are not restricted to, the following themes:

- Dynamic programming
- Multi-criteria decision methods
- Markov decision processes
- Linear programming
- Stochastic programming
- Parameter estimation and knowledge acquisition
- Learning from data
- Simulation
- Descriptive and normative decision tree techniques, including: agent modelling and simulation, and state of the art surveys

Each chapter includes some standard and traditional methodology but also some recent research advances. All the applications presented in the chapters have been inspired and motivated by the demands from the agriculture and food production areas.

From reader reviews:

Randall Yang:

What do you concerning book? It is not important to you? Or just adding material when you really need something to explain what your own problem? How about your time? Or are you busy person? If you don't have spare time to do others business, it is give you a sense of feeling bored faster. And you have time? What did you do? All people has many questions above. They should answer that question due to the fact just their can do that. It said that about book. Book is familiar on every person. Yes, it is correct. Because start from on pre-school until university need this kind of Handbook of Operations Research in Agriculture and the Agri-Food Industry (International Series in Operations Research & Management Science) to read.

Kim Gray:

Nowadays reading books are more than want or need but also become a life style. This reading habit give you lot of advantages. The advantages you got of course the knowledge the particular information inside the book that improve your knowledge and information. The data you get based on what kind of reserve you read, if you want send more knowledge just go with education books but if you want sense happy read one using theme for entertaining such as comic or novel. The Handbook of Operations Research in Agriculture and the Agri-Food Industry (International Series in Operations Research & Management Science) is kind of e-book which is giving the reader unforeseen experience.

Dale Randolph:

That publication can make you to feel relax. This kind of book Handbook of Operations Research in Agriculture and the Agri-Food Industry (International Series in Operations Research & Management Science) was colorful and of course has pictures on the website. As we know that book Handbook of Operations Research in Agriculture and the Agri-Food Industry (International Series in Operations Research & Management Science) has many kinds or category. Start from kids until adolescents. For example Naruto or Investigation company Conan you can read and believe you are the character on there. Therefore , not at all of book are make you bored, any it can make you feel happy, fun and loosen up. Try to choose the best book to suit your needs and try to like reading that.

Kathleen Carroll:

As a pupil exactly feel bored in order to reading. If their teacher asked them to go to the library or even make summary for some reserve, they are complained. Just little students that has reading's internal or real their interest. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that examining is not important, boring as well as can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this Handbook of Operations Research in Agriculture and the Agri-Food Industry

(International Series in Operations Research & Management Science) can make you sense more interested to read.
