**Melt** Robbi McCoy

When photojournalist Kelly Sheffield is offered the chance to travel to Greenland for coverage of American science teams, she grabs it. Not only is it a dream assignment, it also means she'll have a chance to reconnect with the compelling Jordan Westgate, the glaciologist studying the melting ice cap.

Jordan hasn't forgotten Kelly, nor has she forgotten that she'd found it hard, all those years ago, to firmly reject the inappropriate overtures from a student. This Kelly, self-assured, successful, and even more attractive, is a threat to Jordan's equilibrium, something she simply can't allow.

Kelly finds the frozen landscape a match for Jordan's chilly attitude. But Greenland is a surprising land of beauty and danger where even the iciest heart can melt.
